Workers at Warsaw's Sun Components eligible for federal aid

INDIANAPOLIS (June 23, 2006) – The Indiana Department of Workforce Development announced today that the U.S. Department of Labor has ruled that former employees of Warsaw's Sun Components Inc. are eligible to receive federal Trade Adjustment Assistance (TAA).

The TAA program, which is administered at the state level by the Indiana Department of Workforce Development, is made available to workers who are displaced due to foreign imports or shifts in production out of the country.

In order for dislocated workers to be eligible for TAA benefits, a company executive, union representative or three former employees must file a petition with the Department of Labor and it must be approved before benefits can be released. A company official filed a petition on behalf of the workers on April 5, 2006.

The Department of Labor investigation revealed that a shift in production from the Warsaw plant to China occurred during the period of investigation, and layoffs resulted from this shift in production. The investigation further revealed that imports from China have commenced and will replace production at the plant. Consequently, workers at the Warsaw plant qualified for TAA benefits and the findings were certified on May 16, 2006. With the ruling, any employee who has been or will be totally or partially separated from employment on or after April 3, 2005 through May 16, 2008 is eligible to apply for adjustment assistance.

The TAA program provides a variety of benefits and services to help unemployed workers prepare for and obtain suitable employment. Workers may be eligible for a variety of re-employment services, job search and relocation allowances and training. In addition, weekly trade re-adjustment allowances may be payable to eligible workers following the exhaustion of unemployment insurance benefits.

Additionally, the Department of Labor issued a certification for alternative trade adjustment assistance (ATAA) for separated older workers at the Warsaw Sun Components facility. It was found that a significant number of workers at the company age 50 or over possess skills that are not easily transferable and that competitive conditions within the industry are adverse. Older workers may choose between regular TAA benefits or a wage subsidy of 50% of the difference between their new salary and old salary, up to \$10,000.

Eligible parties may contact the Fort Wayne WorkOne at (260) 745-3555, or any WorkOne Center for more information.
